To iMER Medical Services

Dear Gentlemen

I would like to express my gratitude, as well as my patient's and friend's Chrisostomou Philippou. As you know Mr. Philippou faced some health problems for more than 8 months, relating to both his shoulder joints.

He was examined by a number of doctors in the public but also in the private sector and was eventually hospitalized but with no further improvement. He eventually approached your office, were you arranged for him to visit Hadassah medical Centre in Israel. In Hadassah he was diagnosed and given a treatment. Three weeks post the suggested treatment he had great improvement.

It is important to mention that the arrangement for the transportation, the collection, the accommodation, the appointed doctors, and the meetings with them, the exams as well as the procedure for our return to Cyprus were excellent. All procedures were fast and organized, and with no discomfort.

We especially want to thank Mr. C. Constantinou, Dr. S. Kazamias, our coordinator Annael, Professors Reches, Milgrom and especially Professor Ben Shitrit for their help and service. I would also like to give special thanks to your office for the transport and the accommodation that was offered to me when I escorted the patient.

I attach a thank you letter to Professor Ben Shitrit and I kindly ask if you can send it to him.

With Regards

Theodoros Pallaris
Sergeant, Surgical Clinic
Of Famagusta Hospital
